MAPPING THE CITIES THROUGH THE SENSES OF THOSE WHO MAKE THEM

eMOTIONAL Cities is a Horizon 2020 project that is designed to fully characterise the intensity and complexity of urban health challenges and inequalities

www.emotionalcities.h2020.eu

The overall aim of this project is to provide robust scientific evidence on how the natural and built urban environment shapes the neural system underlying human cognitive and emotional processing, with a perspective that also incorporates age, gender and vulnerable groups’ specificities.

More robust evidence for policy making on improved urban health in the EU
- Expected Impacts
  - Improved population health, physical and/or mental, in urban areas of the EU
  - Reduce health inequalities in urban areas

Academic impact
- Socio-economic impact
- Future research/innovation impact
- Public engagement impact
- Business impact
- Impact on pandemics and natural disasters

TARGET GROUPS

- Lay Audience/
  Infrastructure
- Civil Society
  Organisations
- Policy Making
  Bodies and
  Governance
- Industry
  and SMEs
- IST2 Structures
